## HOME OWNER TIPS OF THE MONTH

### Crime Mapping Your Community

[crimemap.calgarypolice.ca](http://crimemap.calgarypolice.ca)

The Calgary Police have developed a web application to provide citizens of Calgary with an interactive mapping tool, to assist them in learning more about activity in their communities, and to engage them in problem-solving. **It enables users to search the Calgary Police Service's records management system, and map reported crime in one or several crime categories.** Data can be searched by crime type, time period, and community boundary. There are 12 categories of crime available for searching, including arson, assault, attempted murder, break and enter (two types), vandalism, robbery, sexual offences, theft (three types), and homicide. The application accesses information for the specified date range, and can retrieve and display information going back as far as six months. ■
